

SWATHI N

Full Stack Web Development (MERN)

Chennai, Tamil Nadu | swathi.pkn@gmail.com | +91 78128 75312 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented Full Stack Developer (Fresher) with hands-on experience in MERN stack technologies including React.js, Node.js, Express.js, and MongoDB. Skilled in building secure, scalable web applications with RESTful API design, JWT-based authentication, protected routing, and real-time features using Socket.IO. IBM and SLA certified in JavaScript and Full Stack Web Development, with a strong foundation in responsive UI design, state management, and problem-solving. Quick learner, self-driven, and eager to contribute as an entry-level MERN Stack / Full Stack Developer.

TECHNICAL SKILLS

Languages	JavaScript (ES6+)
Frontend	HTML5, CSS3, React.js (v18/v19), Tailwind CSS, Bootstrap
Backend	Node.js, Express.js
Database	MongoDB, SQL
State Management	React Hooks (useState, useEffect, useContext), Context API
Tools & Platforms	Git, GitHub, Visual Studio Code, Postman, Thunder Client, Render, Vercel, MS Office, Tally, AutoCAD

STRENGTHS

Communication | Teamwork & Collaboration | Problem Solving | Time Management | Quick Learning

PROJECTS

Maison — Multi-Boutique Bespoke Fashion Platform	React (Vite) · Tailwind CSS · Node.js · Express.js · MongoDB · JWT · Google OAuth
- Developed a dual-portal full-stack e-commerce platform connecting customers with bespoke tailoring boutiques, using React (Vite), Tailwind CSS, Node.js, Express.js, and MongoDB. - Implemented secure dual-role authentication combining JWT and Google OAuth 2.0, with server-side checks and password hashing (bcrypt.js) to prevent cross-portal access between customer and vendor accounts. - Designed MongoDB/Mongoose schemas to capture custom tailoring measurements (chest, sleeve length, shoulder width) throughout the order workflow. - Built a vendor dashboard displaying revenue and order-status metrics, with a per-order chat interface for customer-vendor communication. - Managed global application state (authentication, cart, favorites) using React Context API, with client-side routing and protected routes via React Router DOM. - Designed RESTful APIs with Node.js and Express.js backed by MongoDB for efficient and scalable data management.	
Full Stack Developer Portfolio	React.js · Tailwind CSS
- Designed and built a personal developer portfolio using React.js, implementing reusable, component-based UI architecture. - Styled a fully responsive, mobile-first layout using Tailwind CSS utility classes for consistent design across devices. - Deployed the live site on Vercel with continuous deployment from GitHub.	

CERTIFICATIONS

JavaScript	IBM Developer Skills Network	2026
Full Stack Web Development (MERN Stack)	SLA Institute	2026
Diploma in Office Automation (MS Office & Tally)	Future of Computer Education	2023

EDUCATION

Bachelor of Business Administration (BBA)	2025
